RECEIVED

In re U.S. Patent No. 4,474,787

Issued: October 2, 1984

To: Hugh Cairns and David Cox

For: 7, 6 DIOXO-4H,6H-PYRANO[3,2-g]QUINOLINE

DICARBOXYLIC ACIDS AND ANTI-ALLERGIC USE THEREOF

Expiration Date: October 2, 2001

FEB 25 1993

SPECIAL PROGRAMS OFFICE
A/C PATENTS

**REQUEST FOR AMENDMENT/CORRECTION IN
APPLICATION FOR EXTENSION OF PATENT
TERM UNDER 35 U.S.C. §156**

Hon. Commissioner of Patents
and Trademarks
Box Patent Extension
Washington, D.C. 20231

Sir:

Please amend the first written formula on page 2 of the
above-identified application, which formula follows the
denomination **Chemical name: [patent]**, to read:

--4,6-dioxo-1-ethyl-10-propyl-4H,6H-

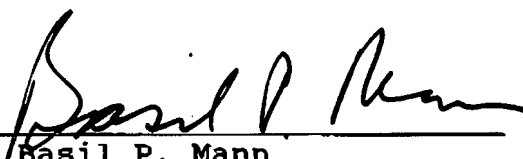

pyrano[3,2-g]quinoline-2,8-dicarboxylic acid,

disodium salt.--

The change to the formula, namely, the insertion of "-2,8-"
in front of "dicarboxylic," identifies the position of the
carboxylic acid substituents.

Respectfully submitted,

By

Basil P. Mann
